

The NIH Supply Center is always striving to meet the needs of our customers within the NIH community as the FAR approved first source for supplies. To improve the shopping experience for our customers in our Self Service Stores, all sales associates in the Self Service Stores have been outfitted with new uniforms! All uniforms have the NIH Logo and the associate's name located on the front of each shirt. By making it easier to identify those in the store that can assist you, we hope to make your shopping experience easier and more enjoyable!! So make your way down to one of the NIH Supply Center's Self Service Stores in Building 10 (B2B41) and Building 31 (B1A47) for all of your office and laboratory supply needs!!
